## **DETAILED ACTION**

### ***Election/Restriction***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figs 1-13; drawn to a skateboard having a suspension balance system wherein each of the wheels is enabled to have independent horizontal and vertical displacement relative to the board;

Species II: Fig. 14; drawn to a second embodiment wherein each of the wheel axles are supported by means of an arm extending away from the board and supporting at its distal end the wheel axle which enables mounting of larger diameter wheels;

Figures 15-19 depict the prior art.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears to be generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

Art Unit: 3618

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. A telephone call was made to Attorney of Record, Mr. Morton J. Rosenberg, Reg. No. 26,049 on August 4, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
